

SkillsUSA Climbed Aboard to Help at the Touch-A-Truck Event

The Skills USA students participated in the Touch-A-Truck sponsored by the Junior Women's Club of Wolcott. It was a huge success! All kinds of trucks were exhibited. Children and adults of all ages climbed aboard and beeped the horns of fire trucks, military trucks, construction trucks, and many more. It was a very exciting and noisy afternoon!

SkillsUSA Students Participated in UNICEF Collection

SkillsUSA students participated in another community service activity by collecting money for UNICEF during the month of October. UNICEF is an organization that provides medication and food to children in third world countries and the United States. Thank-you to the students who participated in this charitable event.
