

# Sixth Grade Family Math and Science Night

Wednesday, February 8, 2012

6:30 - 8 pm

SNOWDATE: Wednesday, February 15, 2012

Tyrrell Middle School Gym

Sixth Grade Students and Their Parent/Guardian

The purpose of the Family Math and Science Night is for each parent to work with their child so that everyone can make the connection of having fun while doing Math and Science with some technology integration.

Some of the fun activities include challenging your parents/guardians in:

- PIG
- Scooter Measurement
- Estimation Jars - Winners will receive a prize!
- Mini Metric Olympic Events
- Percent Lineup
- And more

Students must remember to sign in when they arrive and sign out once they have received their gift and left the gym. At the end of the night each 6<sup>th</sup> grader will receive a packet of materials to continue the activities at home.

Please fill out the bottom portion of this flyer and have your child return it to his or her Math or Science teacher by February 1 so that we know how many families will be attending.

If you have trouble finding childcare, siblings may attend under your supervision. There will be no running around the gym during the activities.
